SUMMARY

Design-first developer and product engineer with 10+ years of UX and product design experience. I turn ideas into working software quickly - from interaction concepts and polished interfaces to full-stack applications and AI-enabled prototypes. Background spans automotive, industrial systems, robotics, SaaS, and developer-facing products.

EXPERIENCE

MAY 2025 - PRESENT	Volvo Construction Equipment - UX Prototyper / Code Whisperer / Sweden - Driving UX prototyping initiatives, bridging design and development with AI-enhanced workflows. - Exploring interactive voice agents and real-time prototyping in heavy equipment UX contexts.
OCT 2019 - PRESENT	Knightec (formerly Semcon) - Senior UX Designer / Sweden - Led UX design projects across automotive and industrial clients, later continuing under Knightec after its acquisition of Semcon. - Delivered user-centered solutions with a focus on intuitive design and sustainable innovation.
NOV 2021 - JUN 2024	Volvo Cars - Senior UX Designer / Sweden Designed intuitive in-car interactions, strengthening safety and comfort features.
FEB 2020 - MAR 2021	ABB - User Experience Designer / Sweden Designed a collaborative web-based robot programming platform with real-time global teamwork support.
OCT 2017 - OCT 2019	Avantida - UI/UX Designer / Poland
DEC 2011 - OCT 2019	Independent Consultant - UI/UX Designer / Worldwide
MAR 2015 - JAN 2018	Kakitangan.com - Founding Design Partner / Malaysia
